

**DO NOT LET DRUG COMPANIES SCARE YOU INTO SURRENDERING
YOUR PARENTAL RIGHTS. STOP AB 499.**

WHAT:

AB 499, by Assemblywoman Toni Atkins (D-San Diego) entitled: Minors: Medical Care; Consent.

This bill mandates every California minor (Girls and Boys) from age 12 and up be allowed to consent to the HPV - GARDASIL - vaccine without parental knowledge. The cost will be born by the taxpayer which can be at a minimum \$120 a shot, for a total of \$360 for this series of 3 shots.

This Merck Co. product is advertised as preventing 4 different strains of a sexually transmitted disease known as HPV - human papilloma Virus. However, there are up to 40 different strains of HPV infection which are not prevented.

WHERE:

This bill is in the Senate Appropriations Committee in Sacramento and will be heard beginning on August 15. If it passes this committee it will go directly to the Governor who has given a strong indication that he will sign this ACLU and Planned Parenthood endorsed bill.

Parents across the country are joining forces to stop this unprecedented invasion of parental authority and privacy. There are documented cases of death, blood clots, vision problems and other life threatening side effects when administered to young children in the early stages of physical maturation. www.truthaboutgardasil.org, www.nvic.org.

The financial costs to the taxpayer as well as the health costs to the young daughter or son are enormous and far outweigh any benefits to be derived.
